*property values, a big ugly tower
in my yard would lower property
values which in turn would lower
the tax base!*

In your opinion, what are the most sensitive resources (biological, cultural, recreational, ect.) in the Project area and why?

TAX BASE

Your comment has been noted. Socioeconomic impacts to property values affected by the transmission line will be addressed in the Draft Environmental Impact Statement.

The Draft Environmental Impact Statement will be available on the RUS website at: <http://www.usda.gov/rus/water/ees/eis.htm>. Comments on the Draft Environmental Impact Statement will be solicited after its publication.

In your opinion, was the project description, purpose, and need for the project adequately explained? If not, what additional information is needed?
